Eddington is a new community in Cambridge for you to explore. Located just two miles from Cambridge city centre, Eddington is a neighbourhood with award-winning architecture, low-carbon homes and innovative site-wide infrastructure, helping people lead more sustainable lives.

How to get here

By Car
From the North/West:
The A1 and A14 link to the A1307. Exit off the A14 at junction 31 onto the A1307 (Huntingdon Road). Once you've passed the BP garage, continue around 150 metres and take the next left onto Eddington Avenue.

From the South/London:
Leave the M1 at junction 10 and use the A1 and M1 link to the A1307 (Huntingdon Road). Continue through the Huntingdon Roundabout and take the next left onto Eddington Avenue.

By Public Transport

1. From Cambridge City Centre: Travel by bus to Eddington Avenue. You can take the Citi 5 or 6 bus from Drummer Street to Bar Hill or Eddington (stop 8) to Eddington where it stops opposite Eddington Avenue. From here, you can take the Citi 5 or 6 bus from Eddington Avenue to Huntingdon Road (alight at the British Antarctic Survey).
2. From Cambridge North Rail Station: Take the Citi 5 bus from Cambridge North to Huntingdon Road (alight at Thornton Road) or the X3 or Citi 4 buses to Madingley Road (alight at the British Antarctic Survey).
3. From the West/Cambridge: Take the A14 taking the B1049 (Histon Road) exit to Cambridge at junction 32. At the end of Histon Road turn right onto Huntingdon Road, then take the next left onto Eddington Avenue.

Parking:
We encourage visitors to avoid travelling by car to Eddington where possible as there is limited parking on site. Parking charges apply (including public holidays) and are from Saturday to Sunday (from 9am Saturday to 9am Sunday) and are free on public holidays.

By Bike
Eddington is a 15 minute cycle from the centre of Cambridge and has plenty of cycle parking.

By Train
Eddington is a 10 minute walk from Cambridge North Rail Station. You can take the Citi 5 bus or Busway route N to the city centre.

Explore

Cambridge is a world-class city on the banks of the river Cam. Eddington sets new benchmarks in sustainable living: these aspirations combine state-of-the-art community facilities and plenty of open spaces for you to enjoy.

Cambridge city centre, Eddington is a neighbourhood with award-winning architecture, low-carbon homes and innovative site-wide infrastructure, helping people lead more sustainable lives.

What you see today is the first phase of the development. Future phases will include additional homes, as well as academic and research facilities.

Travelling to Eddington

How to get here

By Car
From Central Cambridge: Dux dr 3 is the main bus station in the city centre approximately a 2 minute walk from Cambridge station. From here, you can take the Citi 5 or 6 buses to Huntingdon Road (alight at Eddington Avenue) or the Citi 5 or 6 buses to Madingley Road (alight at the British Antarctic Survey). You can also take the Madingley Road Park and Ride bus from the city centre (there is a stop outside the Grand Arcade shopping centre) and take the next left onto Eddington Avenue.

From Cambridge City Rail Station: The Universal bus to Cambridge City Rail Station stops at Eddington where it stops opposite Eddington Avenue. You can hang up here or at the University of Cambridge and take the next left onto Eddington Avenue.

From Cambridge North Rail Station: If you are coming to Eddington from Cambridge North, take the Citi 5 bus or Busway route to the city centre and change at Drummer Street bus station. See information above for bus services from Drummer Street.

Eddington cycling and walking network

Eddington was designed to encourage cycling and walking in order to reduce reliance on the private car. The car club is part of this strategy, providing a free, direct link to cycle through the Park, with, for the very first time in Cambridge, a route which is provided by the City Council to take you directly from the University to Eddington. This is a network of pedestrian and cycle paths, connecting to a network of pedestrian and cycle paths to Heavitree, Newnham, and Mill Road Bridge.

Join the Car Club!

Each car club is parked on the Eddington site, giving you access to a car at any time – perfectly maintained without the hassle or expense of ownership.

E-Car club vehicles are parked on the Eddington site, giving you access to a car when you need it – perfectly maintained without the hassle or expense of ownership. Residents benefit from free membership and two hours of free use per day. Once you activate your E-Car club vehicle, the E-Car club website can be accessed via your smartphone or computer.

Storey’s Way and Madingley Road.

Our own cycle super highway, the Ridgeway is the 900m dedicated cycle and pedestrian path which provides a direct route across Eddington, connecting all the way from the University of Cambridge to the southern edge of the developed area. The Ridgeway provides a direct route to cycle through the Park, with, for the very first time in Cambridge, a route which is provided by the City Council to take you directly from the University to Eddington.
